EMERGENCY PROTOCOLS

In the instance non-Nigerian members of the crew require or request they leave the country we will arrange for them to be transported to Lagos where they may liaise with their embassy. Arik airlines have 2 flights to Lagos leaving Osubi airstrip each day. The producers will have seats on standby for both during the shoot. The airstrip is 30 minutes away. The total time it will take an individual to reach an embassy in Lagos is 1 hour and 40 minutes. Should an individual request to go by road the drive will take approximately 4 hours. Individuals will be escorted by an armed guard on road journeys. All embassies are located on the same street, Walter Carrington Crescent, in Lagos. All embassies will be contacted about the arrival of their citizens before the shoot begins. If an emergency evacuation is needed then the producers and hosts will utilize the repatriation service provided by Flying Doctors Nigeria. Their response time is 24 hours.
