

SAML Integration Planning Questionnaire

10/20/2016

The following questionnaire collects essential information for integrating an application with the NYU Login (SSO) environment. Return via e-mail to ids.services@nyu.edu.

Name of your application/service:

NYU Technical Contact (If a vendor will complete technical work, list vendor contact and an NYU contact who will oversee this work):

NYU Administrative Contact:

Brief description/purpose of your application/service:

1. What data/attributes need to be supplied to your application at login time (via SSO)? NYU NetID is standard, but is additional information (e.g. firstname and lastname) desired? The following attributes (maintained in the NYU Enterprise LDAP Directory) are available:

<u>Attribute</u>	<u>Example</u>
uid	aqe123
displayName	Albert Q Einstein
mail	aqe@nyu.edu
surname (aka sn)	Einstein
givenName	Albert Q
NYUIdn	N2345789
eduPersonEntitlement	(rarely used)
eduPersonPrincipalName	aqe123@nyu.edu
eduPersonPrimaryAffiliation	employee
eduPersonAffiliation	employee
eduPersonAffiliation	student

2. In what timeframe do you want to implement SSO integration for your application? Are there any periods of time in the next few months when this development work cannot take place?
