Labels List Macro

The **Labels List macro** displays a hyperlinked alphabetical index of all labels within the current space.

The label index generated consists of numerous cells, each beginning with one or more letters of the alphabet or a number. Each label within the space is grouped alphanumerically into its appropriately headed cell.

Each label in the Labels List macro links directly to its Labels page, that lists the pages on which the label occurs within the current space.

### Usage with the Macro Browser

To insert the Labels List macro into a page using the Macro Browser,

1. Open the Confluence page or blog post that you want to edit, then click the 'Edit' button.
2. Click the Macro Browser icon on the toolbar. The macro browser window will open.
3. Scroll through the list of macros to find the one you want. Alternatively, start typing the macro name into the search box at the top right of the macro browser. Macros with a matching name will appear in the main pane.
4. Click the desired macro.
5. Set the macro parameters to your requirements. If desired, you can preview these changes by clicking 'Refresh'.
6. Click 'Insert' to add the macro onto the page.

> You can also insert macros via autocomplete. For more information, see Using Autocomplete in the Rich Text Editor.

Once you've found the Labels List macro, click 'Insert' to add it to your page.

### Usage in Wiki Markup

<table>
<thead>
<tr>
<th>What you need to type</th>
<th>Segment of what you will get</th>
</tr>
</thead>
<tbody>
<tr>
<td>{listlabels}</td>
<td></td>
</tr>
</tbody>
</table>

### Parameters

This macro accepts no parameters.
