**Linking to Personal Spaces and User Profiles**

This page tells you how to add a link to a user's personal space or user profile from within another Confluence page, using the Wiki Markup editor.

You can link to a user's personal space (or user profile) easily if you know their username.

**To link to a user's personal space,**

<table>
<thead>
<tr>
<th>What you need to type</th>
<th>What you will get</th>
</tr>
</thead>
<tbody>
<tr>
<td>~username</td>
<td>~username</td>
</tr>
</tbody>
</table>

Unknown macro: (nomarkup)

If the user does not have a personal space, then the link will go to their user profile.
