Department Faculty

This page contains two tables. They can be sorted using the arrows accessed by hovering over the column headings.

Full-Time Faculty

The list of full-time faculty includes all those with compensation at the time the dashboard is run, updated nightly. Therefore the faculty count is not the same as official November 1 snapshot number shown in other dashboards. All employees in the Workday Job Families Tenured/Tenure Track Faculty and Non Tenure Track Full Time Faculty are selected. Some faculty have multiple rows in the data, but the headcount at the end of the table correctly counts the number of individuals.

Non tenure-track faculty are reported in two categories: Full Time Continuing Contract Faculty and Others Full-Time Faculty. This distinction is not recorded in Workday; it is defined by the Office of Academic Appointments.

The compensation shown is the planned amount, not the amount actually paid. It includes compensation in primary and non-primary faculty appointments. It does not include annual merit amounts, activity based pay, or other types of additional compensation. Those categories are shown on the individual records linked to this summary page.

Clicking on a faculty member's Campus ID (highlighted in blue) links to individual detail.

Department Faculty: Contract Faculty Start and End Dates

This separate table lists all non-tenure track faculty with position data at the time the dashboard is run with the start and end dates of their positions. The list includes faculty without compensation records, such as uncompensated emeriti.
