Requesting a New Account

Prerequisite
First, you need a working NetID (NYU Home Page).

If you are an external collaborator (not directly employed by NYU), fill this form (HPC Collaboration Template.docx) with your NYU sponsor, sign and send to us (dalmaadmins@nyu.edu).

Submit a New Account Request

To enlarge the screenshots below, click it.

1. Open your browser.
2. Open the web page of NYU High Performance Computing (HPC) account management site, IdentityIQ (IIQ), https://iiq.home.nyu.edu/identityiq
3. Log in with your NetID and password.

4. When you log in to IIQ you will see a screen like the image below. Click "Request HPC Account".
5. You should see a form like this. Notice the Select Faculty Sponsor drop-down list. The selected person will need to approve your request as instructed below. If you are not a full-time NYU faculty member, you will need an NYU faculty member to sponsor your application. This is probably your thesis supervisor, or NYU collaborator.

6. Hit submit, and the request will go to your sponsor to approve (if applicable), and your account will be created, usually within a day of being approved. You will be returned to the dashboard.

7. **(If you are not an NYU faculty)** Ask your sponsor to approve with the instructions here: Approving Account Request

8. **(Only minimum computing resource will be assigned to your account until you pass the online training!)** Pass our online training for more computing resources. Joining Dalma Online Training.

9. If you have any difficulties or questions, please contact us at dalmaadmins@nyu.edu
