Viewing Recently Updated Content

The ‘Recently Updated’ view is a useful way of keeping track of the changes being made in a space. It displays links to the most recently added or modified content within the space including pages, blog posts, mail messages and comments.

To view the recently updated content in a space:

1. Click on the ‘Browse Space’ link for the space. This is located at the top of every page and beside the space link on the dashboard.
2. Go to the ‘Pages’ tab and click on the link ‘Recently Updated’. A list of the most recently added or modified content in the space is displayed. Clicking on a link will open up the corresponding document.
