Recording Change Comments

A 'change comment' is a short description that details the changes made to a page during an edit. Change comments are a useful way of keeping track of the history of a page.

A change comment is not the same as a comment added to a page. Refer to Commenting on a Page for information about that type of comment.

Note that once a change comment has been added and the page has been saved, it is not possible to update or remove the change comment.

On this page:
- Entering a Change Comment
- Viewing a Change Comment
- Viewing a History of Change Comments

Entering a Change Comment

You can enter change comments in the field located below the edit screen:

Screenshot above: Entering change comments

Viewing a Change Comment

Once a comment has been added, it becomes visible in the view mode of the page, so that users are aware of the most recent changes made to a page. If a comment has been recorded, you will see a 'show comment' link below the page title. Click the link to view the comment.

The 'hide comment' link allows you to hide the comment again, so that it does not distract you from the content of the page.

Viewing a History of Change Comments

The change comments for a page are recorded under the 'Recent Changes' section of the page's 'Info' view and in the page's 'History' view.
