Changing a Space's Logo

In Confluence, you can replace the default logo for a space with a logo of your own choice.

You need to be a space administrator to replace a space's logo.

ℹ️ The instructions below refer to global spaces. For your personal space, your profile picture is used as the space icon.

To change a space’s logo,

1. Go to the ‘Space Admin’ tab of the Browse Space view. To do this:
   - Go to a page in the space, open the ‘Browse’ menu and select ‘Space Admin’.
     ‘Space Admin’ is displayed only if you are a space administrator for that space or you are a Confluence system administrator.

2. Click on ‘Change Space Logo’ in the left panel under the heading ‘Look and Feel’. This will bring up a new screen. See screenshot below.

3. Use the browse option to locate the new logo and click ‘Upload’.
