Table of Contents:

1. Purpose
2. Fact Amounts
3. Examples
4. User Notes
5. Additional Reports

1. Purpose – The Liberal Studies Advisor dashboard consists of two pages, “Incoming First Year Student” and “My Students.”
   - **Incoming First Year Students:** This page allows users to easily view the incoming freshman population, the courses in which they have attempted to register for, and the status of their class enrollment. This data is sorted by the student’s last name in order to help advisors identify their advising students. This dashboard was created for advisors at FAS as a part of the beta UDW+ student integration process. It was designed to assist advisors in auditing courses and grades of assigned advising students and to assist in auditing course registrations for all incoming first years.
   - **My Students:** This page allows users to easily view their advising students and a full history of the student’s academic record. Advisors simply enter their netID (or name) in upper case and term (or term code) to view the data. The student’s full name is hyperlinked to display additional data at the bottom of the page. On the bottom left, cumulative metrics are displayed for a student. On the bottom right, college board test scores are displayed for the student.

2. Fact Amounts –

3. Examples –

4. User Notes – Please note that if the student does not have college board test scores the amounts do not change and will continue to show the test scores for the last displayed student. Also, for Fall incoming populations, it is recommended to filter on Summer and Fall career admit terms to account for the summer HEOP students. Filters can be quickly modified to looks at the Washington Square UFCOREBA students or the global UFGLSPBA students. The following is a list of filters for each page included in this dashboard:
   - **Incoming First Year Students Filters:**
     - Career admit term equal to a specific value(s)
     - Student category or student category code equal to a specific value(s)
     - Primary plan equal to a specific value(s)
     - Registration status equal to “enrolled,” “eligible to enroll,” or “not enrolled – dropped all courses”
   - **My Students:**
     - Advisor netID (enter in upper case) or name
     - Term or term code
