Copy of Running Matlab, Gaussian, etc jobs

This page is retained from an earlier version of the HPC wiki only for reference, and the equivalent up-to-date page is at Running jobs on the NYU HPC clusters.

Jobs using specific installed software

The FAQ (FAQ - Using third-party software) includes examples of how to best run certain software including:

FAQ - How do I use Matlab on the HPC clusters?
FAQ - How do I use Gaussian on the HPC clusters?
