Copy of Class Enrollment subject area

Table of Contents:

1. Purpose
2. Fact Amounts
3. Examples
4. User Notes
5. Additional Reports

1. Purpose – The Class Enrollment Subject Area page includes reports on courses that have had enrollment activity. This page includes headcounts, units, student academic group and org, course academic group and org, course attributes, instructor attributes, student attributes, and CPP stack. It allows reporting on individual class enrollment headcounts as well as combined class total headcounts.

2. Fact Amounts –

3. Examples –

4. User Notes – The level of grain for the class enrollment fact is one row per: term, session, student, class section. It is important to note that including fields such as instructor, career, program, plan, subplan, student groups or service indicators may increase the numbers of rows per student that are returned in a result set, thus changing the grain level.

5. Additional Reports – Please visit the Class Enrollment- Instructor page for additional information.
