Viewing labelled pages

The easiest way to find labelled content is to do a quick search for it. If there is a label matching your query, it will be listed above the search results. Clicking on the link will display all content in the site with that label. (Clicking additional labels on the following page will conduct another search, adding that label to your existing search. See also Navigating Pages by Label.)

- You can view all labelled content for a space by going to the 'Label' tab in the 'Browse Space' view of a space.
- You can view content labelled with personal labels by going to your 'Profile' and clicking on the 'Label' tab.

Advanced label searching

Using the Search Box to find labelled pages

In the search box, you can use the labelText: prefix to search specifically for page labels.

Typing URLs to find labelled pages

In the URL bar of your web browser, you can type URLs like the following to search for multiple labels in pages:

http://CONFLUENCE_HOSTNAME/label/foo+bar

On pressing enter, the 'View Labels' page will load, showing search results on pages with the labels foo and bar.
