Changing a Space's Logo

In Confluence, you can replace the default logo for a space with a logo of your own choice.

You need to be a space administrator to replace a space's logo.

> The instructions below refer to global spaces. For your personal space, your profile picture is used as the space icon.

To change a space's logo,

1. Go to the Space Admin tab of the Browse Space view. To do this:
   - Go to a page in the space, open the Browse menu and select Space Admin.
   > 'Space Admin' is displayed only if you are a space administrator for that space or you are a Confluence system administrator.

2. Click on Change Space Logo in the left panel under the heading Look and Feel. This will bring up a new screen. See screenshot below.

3. Use the browse option to locate the new logo and click Upload.
