Data visualization

Data visualization teams exist within both NYU/Brooklyn Tech and Steinhardt

ITP at Tisch

Data visualization tools:

http://d3js.org/

D3.js is a JavaScript library for manipulating documents based on data. D3 helps you bring data to life using HTML, SVG and CSS. D3’s emphasis on web standards gives you the full capabilities of modern browsers without tying yourself to a proprietary framework, combining powerful visualization components and a data-driven approach to DOM manipulation.
