Deleting a Space

Deleting a space permanently removes the space and all of its contents.

⚠️ Warning
Use caution while deleting a space, and always create an XML Space Backup before proceeding. Once deleted, there is no way to restore a space unless you have made an XML Space Backup.

You need to be a space administrator to delete a space.

To delete a space:

1. Go to the 'Space Admin' tab of the Browse Space view. To do this:
   - Go to a page in the space, open the 'Browse' menu and select 'Space Admin'.
   - 'Space Admin' is displayed only if you are a space administrator for that space or you are a Confluence system administrator.
2. Click on the 'Remove Space' link in the left panel under the heading 'Space Operations'.
3. Click 'OK' when the confirmation screen is brought up.
