

Info Macro

The **Info macro** allows you to highlight helpful information on a Confluence page.

It creates a blue coloured box surrounding your text as shown below.

 **Info Macro Example**
This text is rendered inside the info macro.

On this page:

- [Usage with the Macro Browser](#)
- [Usage with the Wiki Markup Editor](#)
- [Parameters](#)

Usage with the Macro Browser

To insert the info macro into a page using the Macro Browser,

1. Open the Confluence page or blog post that you want to edit, then click the **'Edit'** button.
2. Click the Macro Browser icon  on the toolbar. The macro browser window will open.
3. Scroll through the list of macros to find the one you want. Alternatively, start typing the macro name into the search box at the top right of the macro browser. Macros with a matching name will appear in the main pane.
4. Click the desired macro.
5. Set the macro parameters to your requirements. If desired, you can preview these changes by clicking **'Refresh'**.
6. Click **'Insert'** to add the macro onto the page.

 You can also insert macros via autocomplete. For more information, see [Using Autocomplete in the Rich Text Editor](#).

Once you've found the info macro, click **'insert'** to add it to your page.

Usage with the Wiki Markup Editor

What you need to type	What you will get
<pre>{info}Confluence is the best wiki ever.{info}</pre>	 Confluence is the best wiki ever.
<pre>{info:title=Did you know?}Confluence is the best wiki ever.{info}</pre>	 Did you know? Confluence is the best wiki ever.
<pre>{info:title=Did you know? icon=false}Confluence is the best wiki ever. {info}</pre>	Did you know? Confluence is the best wiki ever.

Parameters

Parameters are options that you can include in Confluence macros to control the content or format of the macro output. The table below lists relevant parameters for this macro.

Parameter names are different in the macro browser and in wiki markup. Below we show the macro browser parameter names in **bold** text, and the equivalent wiki markup parameters in *(bracketed)* text. If we do not show any parameter name for the wiki markup, then you should leave out the parameter name and simply include the parameter value as the first parameter, immediately after the colon (:).

Parameter	Required?	Default	Description
Optional Title (title)	no	none	The title of the information box. If specified, the title text will be displayed in bold next to the icon.
Show Information Icon (icon)	no	true	If "false", the icon will not be displayed.
