

Confluence 1.3.1 Released

Confluence 1.3.1 is a maintenance release that fixes some bugs that users may have encountered using Confluence 1.3.

Confluence 1.3.1 is a free upgrade for any existing Confluence customer. If you're not a Confluence customer, you can download a fully functional 30-day trial. Also don't forget we offer free licenses to registered non-profit organisations and qualifying open source projects.
