The HTML macro allows you to use HTML code within a Confluence page.

Note that the HTML macro will only be available if it has been enabled by your System Administrator.

Usage

(html) ... code ... (html)

Example

<table>
<thead>
<tr>
<th>What you need to type</th>
<th>What you will get</th>
</tr>
</thead>
<tbody>
<tr>
<td>(html)&lt;a href=&quot;http://www.atlassian.com&quot;&gt;Click here&lt;/a&gt;</td>
<td>Click here.</td>
</tr>
</tbody>
</table>
